

NailPrinter V11 App Install Quick Guide

Official links and current identity checks - August 19, 2026

V11 ONLY

STOP if the machine label says X12.5. That model uses its integrated 10.1-inch screen and does not follow this V11 phone-app route.

Before you install

1. Confirm the printer label says V11.
2. Use only the official store link supplied below.
3. Do not use a random QR code, third-party download, or APK file.

Apple - iPhone or iPad

App: O2Nails

Developer: Guangzhou Taiji
Electronic Co., Ltd.

[Open the official Apple Canada listing](#)

Google Play - Android

App: O2NAILS - Nail Art Fashion

Header may be Chinese.
About the developer: Guangzhou Taiji
Electronic Co., Ltd.

[Open the official Google Play listing](#)

Install and open the app

1. Open the supplied official store link.
2. Confirm the app and developer identity above.
3. Tap Get or Install and wait for the official store to finish.
4. Tap Open.

If the identity does not match or the store shows a warning

Stop. Send NailPrinter.ca Support the printer model, phone type, and a cropped screenshot of the store or error with sensitive information removed. Never send a password, Wi-Fi password, payment-card details, or another person's information.
